Summary

Entry-Level Software Developer with hands-on experience building web interfaces, interactive JavaScript projects, and a C# desktop application. Focused on web development, with a strong CS foundation and the ability to learn new tools quickly.

Technical Skills

- Languages: JavaScript (ES6+), HTML5, CSS3, Python, C#, SQL
- Web: Responsive Design, DOM, Fetch / REST APIs, Async JavaScript
- Tools: Git, GitHub, VS Code, Linux

Projects

Cursor Trail Demo | JavaScript, HTML, CSS | [Demo](#) | [GitHub](#)

Interactive cursor-trail effect with real-time controls for trail count, size, color, opacity, and scale.

Mood Journal Web App | JavaScript, HTML, CSS, jQuery | [Demo](#) | [GitHub](#)

Interactive journal app where users select a mood, create dated entries, and view saved history through a dynamic interface.

Arduino LED Controller | C#, WPF, Serial Communication | [GitHub](#)

Built a desktop application that controls Arduino-connected LED lighting through a COM port, with color, brightness, timing, and preset modes.

Education

Sacramento City College, Sacramento, CA

Associate of Science in Computer Science: degree requirements completed
Web Developer A.S. - in progress

Relevant coursework: Data Structures, Object-Oriented Programming (C++), Algorithms, Assembly Language & Computer Organization, Database Programming, Client-Side Web Scripting, Linux Server Administration, Calculus I-II
